

Air Conditioner with Puron® Refrigerant

MODEL 165A

Preferred[™]
SERIES

Preferred Cooling and Energy

Bryant is America's Choice

Since 1904, Bryant has built a tradition of comfort by doing whatever it takes to deliver products of superior quality and performance. Thanks to the commitment and dedication of our development and manufacturing teams, homeowners nationwide have learned to rely on Bryant for innovative and reliable indoor comfort solutions. Today, with energy costs and environmental awareness on the rise, Bryant offers an excellent fit for concerned homeowners: the Model 165A Air Conditioner with Puron® Refrigerant.

The Bryant Model 165A provides worry-free cooling that won't deplete the Earth's ozone layer. It delivers savings on your energy bills with up to 15.0 SEER efficiency. And it does it all as quietly as the refrigerator in

your kitchen. Designed, built and backed by the most trusted name in the business, and installed by your trusted and professional Bryant dealer, the Model 165A Air Conditioner with Puron® Refrigerant provides comfort you can enjoy season after season.

Feeling Good About Feeling Comfortable

With the Model 165A, you join the growing ranks of homeowners who choose environmentally sound Puron® Refrigerant. It's an important consideration because Freon®-22*, the refrigerant most commonly used in evaporator coils, is gradually being phased out of existence due to concern over the Earth's ozone layer.

As supplies dwindle, costs to service air conditioners using Freon-22 may rise dramatically. By choosing the Model 165A with Puron Refrigerant now, you are helping preserve the ozone layer while protecting yourself from potentially expensive service costs down the road.

Quiet Efficiency and Lasting Reliability

Relaxing in the comfort of your home is easy with the Model 165A because this is one quiet air conditioner. Our 5-point AeroQuiet II™ System design keeps operational sound to a minimum. Featuring forward-swept fan blades, a compressor sound blanket and split post compressor grommets, the Model 165A operates as low as 67 dBA. And when the electric bill arrives, you'll still be happy because this air conditioner saves money with its 15.0 SEER cooling performance.

In addition, Bryant's Model 165A delivers the peace of mind that comes with choosing a system developed by a company known for its commitment to customer satisfaction. From initial design through product testing and an assembly process that includes our 5-step, 100% run test, we go beyond the industry's expectations for quality and reliability to be sure that every unit we make measures up to even tougher standards – yours.

*The registered owner of Freon is E. I. DuPont de Nemour & Co.

Energy Efficiency.

Warranty

Bryant's Model 165A provides dependability backed by written warranty protection. The compressor is protected by a 10-year limited warranty. The entire system is covered by a 5-year limited warranty. Extended warranties are also available. Ask your trusted Bryant dealer for details.

Performance

As an ENERGY STAR® Partner, Bryant Heating & Cooling Systems has determined that this product has combinations that meet the ENERGY STAR® guidelines for energy efficiency.

Elevate Your Comfort with Evolution

The Model 165A is your trusted source for comfort during the cooling season. For enhanced control over temperature, humidity, air quality, fan speed and ventilation, add a variable speed furnace or fan coil and our Evolution™ Control to create a Bryant Evolution™ System. As a part of this remarkable system, Perfect Humidity™ improves your comfort by providing up to 30 times the humidity control of standard air conditioner systems.

Attractive, Durable Design

The Model 165A beats the heat with an attractive, durable cabinet on the outside and rugged components on the inside. The DuraGuard Plus™ protection package with baked-on powder paint and our patented DuraFlow™ louvered coil guard not only look great, but protect the coil from damage from rocks, sticks, sports and lawn equipment and more. Inside, copper and aluminum components and protective features ensure solid performance season after season.

COMPARATIVE SOUND RATING

▲ **The Model 165A operates at sound levels as low as 67 dBA, about the same as your kitchen refrigerator.**

The optional Evolution™ Control is much more than just a thermostat. It is your single source of precision temperature, humidity and indoor air quality.

Home Comfort Components

PURON® REFRIGERANT

Bryant's environmentally sound refrigerant keeps you cool without depleting the Earth's ozone layer.

1 ENVIRONMENTALLY SOUND, EXTRA-EFFICIENT

Our scroll compressor is designed for use with Puron® Refrigerant to provide quiet, smooth-operating comfort and years of environmentally sound, trouble-free performance.

2 RELIABLE PERFORMANCE

Bryant's Microtube™ Technology refrigeration system with copper tube/aluminum fin coil maximizes transfer of heat outside your home to ensure cooling efficiency. Coil materials and design minimize chances for rust and corrosion for lasting performance.

3 QUIET OPERATION

AeroQuiet II™ System optimizes airflow and incorporates sound-absorbing materials for minimal vibration and reduced sound. The keys to this system include AeroQuiet top, forward-swept fan blades, sound hood and split-post compressor grommets.

4 LASTING COMFORT

High- and low-pressure switches and the filter drier protect the unit's most important single component: the compressor.

5 BUILT TO LAST

Bryant's protection package ensures lasting durability and good looks. Three key elements to this package include galvanized steel cabinet, louvered coil guard and baked-on powder paint.
